Some of the joys of single parenthood, an interesting little boy, a frustrated Mom, a couple of senior with their own eccentricities, more friends previously met at Starfish Bay and you have a lively story with a good dose of humour. Didn't take long to read this one! Another star in Irene Hannon's galaxy.

Loved it.....all your books are wonderful...I never loan out books...but I have this series...please

continue on with this series.....easy reading.....holds your interest....dinner was served many nights without me present...hahahhehehe....my family knowswhen I find a good author....watch out.....I will be in the swing on the porch...with my nose in the book....keep up the good work Irene....

I keep reading books then read a second book only to figure out I should have read it first. Is there a list somewhere? What key sign am I missing any book might be part of a series? Thanks for any help. CT

Wonderful second book in this series! Irene Hannon never disappoints with her realistic characters, interesting places, romantic journeys, and expressions of faith that will always fill your heart with hope, joy, and above all else love that lasts. Her "Lighthouse Lane" series is one of my all-time favorites, and this new series is becoming yet another. I can't wait for the next book that will bring me back to the amazing Starfish Bay with the inspiring older sisters who are always in the midst of the matchmaking and own the main eatery in the quaint location. It makes you want to find a way to get a place of your own there as soon as possible... maybe with another in Lighthouse Lane to move between! The given historical aspect adds another level and makes you truly believe you know these people. It also points out how even in this new era traditions and understanding the past of our ancestors is a way to make the present love just as exquisite as it was for them then. In this book it is even more relevant when it is shown with a ring that holds the best promise anyone can be given - a forever love that will transcend the current and offer a link to a bygone love to emulate. Thank you, Irene, for once again making me laugh, cry, and bounce with joy... I will happily be going back to Starfish Bay as soon as I can! God bless you bunches ^ ___ ^ Tonja (with a "j") Klein - (...)

Finding Home is book two in the Starfish Bay series. The book stands alone if you have not read the first book. In Finding Home we have single mom Cindy and her son, Jarrod. Cindy receives a promotion and Jarrod is trying to entertain himself while his mom is working. Scott, the project manager, finds Jarrod at the construction site and scares him. When Scott sees Cindy with Jarrod he criticizes her about watching him more closely. At first you struggle with liking Scott but he quickly redeems himself. His relationship with his grandmother that raised him was precious. I found the story of the grandmother just as entertaining as the story line with Cindy and Scott. The author creates interesting situations for Scott and Cindy to get to know one another better and some tender moments between Scott and Jarrod where Jarrod. You can see my full review at More Than a Review dot com where I rate the level of sex, violence, language and drug/alcohol use in books.

Reading this series was like going home, since I went to High School in Crescent City, close to where this series takes place. I've shared these books with a friend of mine and she loved them as well. I just wish she continued on with the series, with more stories about Starfish Bay. Thank you Irene.

Starfish Bay Book 2 This book was sweet without much drama. The situations were pretty light-hearted, unlike the first book that had some pretty heavy and shocking revelations in it. We met Cindy and Jarrod in the first book. Jarrod was a pretty sad kid who had just lost his father and was struggling in school. Now he's behaving like a normal child, but is a bit afraid of the big man who just chewed him out. He doesn't care for Scott at first, but soon warms up to him. Scott lost his parents when he was eight. He and his sister were raised by their grandparents, and his sister was spoiled rotten. Now she's mooches off of her grandmother and brother. Scott's grandmother has given up on life. Like I said, nothing too dramatic until the 'accident,' which made the following scenes even sweeter. The couple were honest about their relationship - or lack of - from the beginning. There weren't really any secrets.

This is the second book in the Starfish Bay Series. It is well-written, with believable characters and good values. The series are stories of finding love in a small coastal village in northern California. The final book will be published in 2013.
