Riding Him (Ghost Riders MC Book 5)

Synopsis

Knox â œScribeâ • Robertson has been with the Ghost Riders MC since the beginning. Heâ s the club hacker, and thereâ s nothing he canâ t doâ | except make Violet Cassano notice him. The little thing is trying to patch in, and suddenly all his protective instincts push forward. He canâ t let her become a member of the club without putting her in harmâ s way. Violet has been different since that dark day in her past, but the Ghost Riders are exactly what she needs. If only the hot, tattooed, bearded piece of meat Knox would get out of her way. Sheâ s got enough sass and skills with knives to keep him at a distance, but soon she doesnâ t want to. When the two of them are paired up for a job out of town, theyâ ll be left on their own in the middle of nowhere. Being stuck inside a tiny tent, with no one to hear themâ | I wonder what could possibly happen? *cue dirty 70s music* The Ghost Riders are at it again in this final chapter to the series. See how the club hacker finds his happily ever after, and what Violet does to keep it that way. Spoiler alertâ | Itâ s dirty stuff. Riding him is the last installment in the Ghost Riders series (insert ugly crying here) and tells the tale of Scribe and Violet. Until she met the Ghost Riders, Violet has never felt she fit in anywhere. Finally finding where she is meant to be, she does everything she can to become a member. Anyone standing in her way, won't be standing for long. Scribe doesn't feel Violet is right for the Ghost Riders. He doesn't want her as a brother in arms | he just wants her as his. When Violet is given the opportunity to prove herself to the club, and is sent on assignment with Scribe, sparks fly (insert swoon here). Only Alexa Riley can manage to deliver that magical combo of over-the-top obsessive devotion, knock you off your ass sex, and likable (not to mention lickable) characters. Riding Him is no exception to the AR magic. You need this book in your life. You do not need to read the rest of the series to read Riding Him, but you'd be doing yourself a disservice.

Violet has finally found her place in the world along side the Ghost Riders MC as the protege of the ruthless Casper; sniper and only female member. Filling in Cas' shoes are not going to be easy, especially with having to work with Scribe, the resident hacker - and her secret crush, even if she doesn't want to admit it. She thinks that Scribe's attitude and flirty behavior toward her is because he thinks she's incapable of the job. Maybe though, it's because he wants to keep her safe in his arms. This is my confession: Riding him is a competent swan song for this much loved series. Violet and Scribe's love story might be one of my favorite in the series, and that's saying something.

Another hit in the series. It was sexy, a little adventurous and funny. Loved Violet. She reminded me of Cas. Tough exterior, with soft spot inside. Which only can see her man. And Knox is so lovable. Loved seeing them together. Though, I have to say I love this story, it was bittersweet read, because it seems is the last book in the series. I really hope in the near future we will see more of these characters.

5 *stars* for Riding Him by ARScribe/Knox and Violet's story. Violet has been training with Cas to take her place when she has her baby. She is also Vincent's sister. Violet has the capabilities to become a patched in member of the Ghost Riders MC. Now she has to prove that she is tough

enough to be a member. Violet has a past that not many know about and she has to overcome. There's a reason for her being called 'Violent Violet.' Scribe is the Ghost Riders computer hacker. He's also going to be working as the eyes on the ground when she's high in the hills waiting to take her shot. He doesn't know what he feels about her, she does something to him just by being in the room. Violet doesn't care about any man and hasn't for a while until Scribe walks into the room. She keeps everyone away from her, except her family. Scribe? she has an attraction to him but, she never gets the flirty, funny Scribe. He thinks she's not ready and now she's going to show him how ready she is. These two have a job to do and it involves trust. Violet has to trust Scribe to give her the information she needs to be able to do her job. A job where she's lying on the side of a mountain waiting for the subject to be where she needs him to be for her to do her job. Once these two decide to give it a go and give in to the attraction they might possibly burn down the tent with their hawt, steamy time together. Another HEA for the Ghost Riders and an awesome end to the series. I love this series and am disappointed that it is coming to an end. I know also that Alexa Riley will not let us readers down and will have another amazing story and/or series in the future. They love their readers and surprise us all the time with new adventures all the time. Thank you both for your wonderful imaginations.

Wow just simply WOW!!! What a lovely ending to this series, I was so excited for Scribe's and Violet's story. But now I'm sad that it ended. Scribe has always been my favorite with his witty banter and smart ass comments, always being funny to relieve the tension. I love the way he talks about his cock as a third person it's hilarious, and my god is he hot and a dirty sexy talker. I think he was well described and his story into his past was well told. His need for a solid family foundation was great and how he found it and the general who saved him was just heart warming. Scribe is definitely a sexy hot alpha male, who would have thought that under his nerdiness was a very gorgeous hot man. As for violet well what can I say besides her character being so closed off and sort of like an introvert due to her traumatic experience at the young age of 15. I felt like the description of her character was just ok and wasn't detailed enough except for a few snippets. Something was missing as much as she was described fighting for her own and wanting to belong nothing else is said about her or what actually happened to her. She was still a good character and I think she complimented Scribe well is like the sun and darks coming together. It was a bit rushed and it definitely felt like there was more to this story, which I think could've been said. Still Alexa Riley didn't disappoint she delivered a great story an ending to an amazing series and my heart hurts.
