I so love this series and that ending was PERFECT, not a cliffhanger just plain perfect. I am just so happy to know that it will continue. I am a voracious reader and only watch a little TV but this series has become my equivalent to a favorite soap opera (as long as the soap includes spaceships, battles, cussing, and worldwide intrigue). If you are considering reading based on the great reviews, start at the beginning and enjoy.

I love this series. It is always humorous and as the author has learned the series has only gotten

better. I greatly appreciate his willingness to correct early works such as editing mistakes as he has learned that good books need good editors. I have read some complaints that this book jumped around with too many different scenes. Personally I think Michael did a great job with the multiple issues that arise in a long series. Not once did I feel like a scene was left short changed so he could jump to another scene. I think this is one of the hardest things authors have to do, it is so hard in fact that most authors don't even try, instead they play one scene complete then jump back in time to play out another. The way this book was done made me feel like it was real life and I got to be the person in the know for all of it. (Bethany Anne) Keep up the great work and hey if it takes six weeks to get a book out instead of four, lol I'm good with that.

Yes! The next book is out! I love the series and this one was just as good. The solar system has been invaded by an alien ship, and not Kurtherian this time. We have action with that front. Plus the leopard empress makes a move or does China make a move against them? This book has some action and we start seeing the start of the future to come!

The books keep getting better and better. As the author explores the Kurtherian Realm the content gets more fleshed out, and the characters richer. As the books progress you realize this is just the start. I keep looking forward to each and every book. I've put forth in review after review that the author really does engage with his readers on Facebook on other mediums. Plus he is very prolific, you don't have to wait a year or more to see what happens. Unfortunately my character in the books perished in this book, but he went out a hero. He is a great guy and I heartily support his work.

The awaited enemies have arrived, and they might not show enough respect, a really good way to give yourself a bad ending! The Queen has dedicated herself to the defense of the people of Earth, and she faces the first test of her abilities against a completely new foe. Some things have been settled on Earth, but somebody is always scheming somewhere, and Bethany Anne and her subjects constantly have to find a balance of the Earthly forces, while expanding their capacity for the confrontations in space.

Hot Dang! Book 12 is out!! I am starting to read it now, but I know from previous experience that it will be a 5 star journey. (I can always come back and change the rating later if I am wrong...Like that is ever gonna' happen. Heh!) Mr. Anderle please see your physician and take all of your vitamins on a regular basis. We need to ensure that you continue to be healthy enough to write this series for

many, many years to come. With Thanks!

Continuing his streak of writing a book a month, the author has brought his story to the stars and started to clean up the loose ends on earth. Aliens are scouting earth, the Emerald Empress needs to be dealt with, and relationships need to be put in place. We have action, ground battles, space battles, humor, love and politics all blended in to an engaging story. Not as good as the first 3 books, but not bad at all. Luckily, the author can keep all the characters and story lines separate and not cause confusion, which is a huge win for any author. Good job.

This writer is special - he communicates with his readers and doesn't take a year between books. His storyline is great and the characters are also. BA and her crew will save the earth, there is no doubt in my mind. I look forward to the next book. This book was great - about the time I really get into the story, it is over but it adds to the overall saga. Thanks, and keep up the good writing.
