# Cyber Attack: A Post-Apocalyptic Fiction Series (The Boston Brahmin Book 2)

## Synopsis

America is one bad news story away from societal and economic collapse. As one cyber attack after another disrupts everyday life, powerful political forces and wealthy oligarchs plot the demise of the United States in *Cyber Attack Book Two* in *The Boston Brahmin* series. A prophetic and prescient novel by Author Bobby Akart, *The Boston Brahmin* series continues as nine patriotic Americans whose lineage dates back to the Founding Fathers prepare for the coming collapse. As the cyber attacks intensify into a full blown cyber war between the most powerful nations on the planet, a conspiracy develops which provides cover for a President desperately seeking to extend his hold on power. Wealthy international financiers - *The Boston Brahmin*, exploit this weakness to their advantage in order to direct geopolitical events on the world stage. Political suspense collides with post-apocalyptic thriller fiction as *Cyber Attack* reveals that all empires collapse eventually and that there have been no exceptions.

## Customer Reviews

When reading author Bobby Akart's books I keep thinking, "ripped from today's headlines." Do we have a seer, a prognosticator in the form of Bobby Akart? Really, where did this author come from?

The events in his books are so real it's scary. Cyber Attack takes up where The Loyal Nine leaves off; in the cockpit of a Boeing 757. Zero Day Gamers are playing their sneaky games again by taking control of the aircraft from the astonished pilots. Just so there is no mistaking the takeover for some sort of glitch the hackers, when releasing control of the aircraft back to the pilots, leave a very short message. "Thank you for flying with Zero Day Gamers Airways." Were I the Captain of that aircraft I would never want to fly again. If hackers can take complete control of an aircraft, while in flight, what else can they do? Placing his trust in Donald Quinn as planner and project manager of building, and establishing a safe compound for his family, members of the Boston Brahmin and a small contingent of military personnel, John Morgan continues his plot to push the reset button for America. The compound will be well hidden while being constructed under the guise of a safe haven for abused women and children. Built on top of an underground bunker it will look as if it were a normal facility when in reality the bunker will house everything needed for survival for an extended period of time. From behind the scenes John Morgan, continues to manipulate the world banking system as Greece, followed by Italy, Spain and maybe Portugal, default on their loans, which will cause the collapse of the Eurozone. This event brings America closer to economic collapse. (Does that sound familiar?) What role will the Zero Day Gamers play in this catastrophic world event?
