Customer Reviews

I rented this book for my spring class 2016 and it's right on point. When I received it in the mail it was brand new and wasn't expecting that. Only error I saw in the textbook was that in chapter 1 it has a couple of duplicated pages other than that it is a great book.

Book was exactly as described. Its still in the beginning of my rental so i can only half review it

It was exactly what I needed and I received it at the perfect time!

Perfect! Just as description and one of the cheapest online !

Book is great, quick delivery for a summer class!

does it come with "connect plus access"?
