Customer Reviews

This is one of the best book series I have read. Each book has fresh ideas that continue the plot from the previous book, as well as, introduces a new plot with fresh ideas. The characters are interesting and well developed. There's a good pace from scene to scene that draws the reader in to the story. I like how the relationship between Walt and Danielle is constantly changing and developing. The slow progression of the relationship between Danielle and Chris, while annoying, is realistic and believable. Lilly is one of my favorite characters, she keeps things real without being obnoxious. Marie is also one of my favorites. She's always there to offer grandmotherly advise and love for everyone. The mystery is well plotted with lots of drama and suspense. All in all it's a great

book and a great series. I hate that I have to wait until October for the next book.

The only way to make this series better, turn it into a series of Hallmark Movies or mini series! I would LOVE to see how my imagination matches against the author's vision for her town and its inhabitants. Such a sweet story, can't wait to see how Walt and Danielle define their relationship in the next book.

Fantastic book. I love, love, love this series. Once you get to know the main characters you can't wait to reconnect with them with each new book. The writing, the story line and the mystery are all beyond exceptional. What more can I say.....mysteries with a touch of paranormal don't get any better than this.

All of the Bobbi Holmes books are great. I have read all 9 books of Haunting Danielle series and waiting for #10. You start to read and can not put it down. Danielle owns a B&B in a small town and believe me when I say, you want be disappointed. This one surprised me, which is always exciting.

I have read all of this series so far, and enjoyed it very much. You really need to start at the beginning, because the character spill from one book to another and there are references to plots in the previous books. I recommend this series for the cozy who done it fans.

I have read almost all of the "Haunting Danielle) books and always have a good time. The stories are interesting, intriguing and great reading. Kudos to the author and hope that their muse is always there to inspire them. Recommended!!
